

A Good Turn Daily

When I was doing my homework, two guys came to our house asking for John. My dad said: “He’s not here.” Then, I saw the same two guys hopping the fence next door and breaking into the house. So I told my parents and gave my mom the police number I got from our boyscouts meetings. My mom called the police while my dad went in front of our neighbor’s house. The owners were not home. Twenty minutes later, the bad guy jumped out of the house from the balcony. My Dad attacked him with his Judo skills. The police came and cuffed him up and put him in the car. The police then asked my mom, dad and me to answer a lot of questions about what was going on. Then they looked at the broken windows. They had to figure out the fingerprints. After that they called our neighbors to check if there was anything missing in their house.

On that day, I was happy that I have used something my den leader taught me: a scout is helpful!

Cub Scout Andrew Nguyen

My pack name is Trường Sơn and the number is 680. My den number is Den #5. There are 5 people in my den. They are Timothy, Andy, Nghĩa, and Danny. I’m a leader and a Bear Scout.

The reason I like about boy scouts because we get to help people and the fun we have. I’ve joined the boy scouts since my first grade and I’ve had fun since that day. I learned morse, camping, survival, tying knots, and plant at boy scouts.

The favorite places I went at Scouts was Liên Kết camp, Youth Expo, Scout-O-Rama, police station, and the USS Midway in San Diego. I always feel great when I’m wearing my scout uniform.

Cub Scout Royce Nguyen

My Life with Truong Son

My name is David Luong. I am in second grade and I am a wolf of Lien Doan Truong Son. I joined Cub Scout in September 2003. Two months ago, I went to the USS Midway to see the Aircrafts with my troop. It was cool to see many types of aircrafts. We planned to visit the Police Station for the next field trip. The only thing I dislike about scouting is walking on the park all the time. I wish we have chairs and tables for us!
